

Enclosure Features

There are 6 Sizes and 12 different models to choose from:

- **Single** – 46" x 46" x 88" & 36" x 36" x 88"
- **Double** – 46" x 88" x 88" & 36" x 68" x 88"
- **Cabana** – 46" x 130" x 88" & 36" x 100" x 88"

- AVCON Outdoor Enclosures Frames, Headers and Posts are manufactured using only heavy gauge aluminum then welded and powder coated.
- All Powder Coating meets (AAMA 2604) Standards, guaranteed not to chip, fade or rust.
- The side-wall panels and optional roof are made of high-grade outdoor weatherable Vinyl containing a special formula of UV inhibitors to insure color fastness.
- Unique and invisible within each panel are three fused reinforcements providing rigidity and to help prevent "oil canning" prevalent in other extrusions.
- A time-tested recipe of ingredients in our vinyl prevent brittleness, mold and mildew.
- All non-powder coated hardware is high-grade stainless steel.
- The floor decking is an outdoor weatherable composite, spaced for drainage and constructed in two parts for convenience of removal to clean or store.
- With any model there are no opening allowing anyone to see inside.
- All units are designed to allow easy expansion to larger models.
- Wall panels with a shower head and faucet are designed to be removable. This allows easy access to plumbing or for cold weather storage.
- There are multiple color options for both the unit and flooring.
- Includes a Limited lifetime warranty backed by a 30-year-old Company.
- Proudly: **MADE IN THE USA**
- Easy Installation

Accessory options include: a corner seat, free standing benches, towel bar, hook bar and louvered roof. The roof has the option of pergola end caps or flat caps.
